

PALOS PARK POLICE DEPARTMENT
BUSINESS DISASTER AND CONTINUITY PLANNING PACKET

September 25, 2008

John Mahoney, Esq., Mayor
Dr. Dan Polk, M.D. Police Commissioner
Joe Miller, M.S. M.B.A. Chief of Police

The following will give you an idea of what it may cost to develop a disaster protection and business continuity plan. Some of what is recommended can be done at little or no cost. Use this list to get started and then consider what else can be done to protect your people and prepare your business.

No Cost

- Meet with your insurance provider to review current coverage.
- Create procedures to quickly evacuate and shelter-in-place. Practice the plans.
- Talk to your people about the company's disaster plans. Two-way communication is central before, during and after a disaster.
- Create an emergency contact list, include employee emergency contact information.
- Create a list of critical business contractors and others whom you will use in an emergency.
- Know what kinds of emergencies might affect your company both internally and externally.
- Decide in advance what you will do if your building is unusable.
- Create a list of inventory and equipment, including computer hardware, software and peripherals, for insurance purposes.
- Talk to utility service providers about potential alternatives and identify back-up options.
- Promote family and individual preparedness among your co-workers. Include emergency preparedness information during staff meetings, in newsletters, on company intranet, periodic employee emails and other internal communications tools.

Under \$500

- Buy a fire extinguisher and smoke alarm.
- Decide which emergency supplies the company can feasibly provide, if any, and talk to your co-workers about what supplies individuals might want to consider keeping in a personal and portable supply kit.
- Set up a telephone call tree, password-protected page on the company website, an email alert or a call-in voice recording to communicate with employees in an emergency.
- Provide first aid and CPR training to key co-workers.
- Use and keep up-to-date computer anti-virus software and firewalls.
- Attach equipment and cabinets to walls or other stable equipment. Place heavy or breakable objects on low shelves.
- Elevate valuable inventory and electric machinery off the floor in case of flooding.
- If applicable, make sure your building's HVAC system is working properly and well-maintained.
- Back up your records and critical data. Keep a copy offsite.

More than \$500

- Consider additional insurance such as business interruption, flood or earthquake.
- Purchase, install and pre-wire a generator to the building's essential electrical circuits. Provide for other utility alternatives and back-up options.
- Install automatic sprinkler systems, fire hoses and fire-resistant doors and walls.
- Make sure your building meets standards and codes. Consider a professional engineer to evaluate the wind, fire or seismic resistance of your building.
- Consider a security professional to evaluate and/or create your disaster preparedness and business continuity plan.
- Upgrade your building's HVAC system to secure outdoor air intakes and increase filter efficiency.
- Send safety and key emergency response employees to trainings or conferences.
- Provide a large group of employees with first aid and CPR training.

Prepare. Plan. Stay Informed. .

Emergency Planning For Employees

Your employees and co-workers are your business's most important and valuable asset. There are some procedures you can put in place before a disaster, but you should also learn about what people need to recover after a disaster. It is possible that your staff will need time to ensure the well-being of their family members, but getting back to work is important to the personal recovery of people who have experienced disasters. It is important to re-establish routines, when possible.

1. **Two-way communication is central** before, during and after a disaster.
 - Include emergency preparedness information in **newsletters, on company intranet, periodic employee emails** and other **internal communications tools**.
 - Consider setting up a telephone calling tree, a **password-protected page** on the company website, an email alert or a **call-in voice recording** to communicate with employees in an emergency.
 - Designate an out-of-town phone number where employees can leave an **"I'm Okay"** message in a catastrophic disaster.
 - Provide all co-workers with **wallet cards** detailing instructions on how to get company information in an emergency situation. Include telephone numbers or Internet passwords for easy reference.
 - **Maintain** open communications where co-workers are free to bring questions and concerns to company leadership.
 - Ensure you have established **staff members who are responsible for communicating** regularly to employees.

2. **Talk to co-workers with disabilities.** If you have employees with disabilities ask about **what assistance is needed**. People with disabilities typically know what assistance they will need in an emergency.
 - **Identify** co-workers in your organization with **special needs**.
 - Engage **people with disabilities in emergency planning**.
 - Ask about communications difficulties, physical limitations, equipment instructions and medication procedures.
 - Identify people willing to help co-workers with disabilities and be sure they are able to handle the job. This is particularly important if someone needs to be lifted or carried.
 - Plan **how you will alert people who cannot hear** an alarm or instructions.

3. **Frequently review and practice** what you intend to do during and after an emergency with **drills and exercises**.

Sample Business Continuity and Disaster Preparedness Plan

PLAN TO STAY IN BUSINESS

If this location is not accessible we will operate from location below:

Business Name

Address

City, State

Telephone Number

Business Name

Address

City, State

Telephone Number

The following person is our primary crisis manager and will serve as the company spokesperson in an emergency.

If the person is unable to manage the crisis, the person below will succeed in management:

Primary Emergency Contact

Telephone Number

Alternative Number

E-mail

Secondary Emergency Contact

Telephone Number

Alternative Number

E-mail

EMERGENCY CONTACT INFORMATION

Dial 9-1-1 in an Emergency

Non-Emergency Police/Fire

_____	_____	_____
_____	_____	_____

ANNUAL REVIEW

We will review and update this business continuity and disaster plan in _____.

Emergency Supplies

Talk to your co-workers about what emergency supplies the company can feasibly provide, if any, and which ones individuals should consider keeping on hand. Recommended emergency supplies include the following:

<input type="checkbox"/>	Water , amounts for portable kits will vary. Individuals should determine what amount they are able to both store comfortably and to transport to other locations. If it is feasible, store one gallon of water per person per day, for drinking and sanitation
<input type="checkbox"/>	Food , at least a three-day supply of non-perishable food
<input type="checkbox"/>	Battery-powered radio and extra batteries
<input type="checkbox"/>	Flashlight and extra batteries
<input type="checkbox"/>	First Aid kit
<input type="checkbox"/>	Whistle to signal for help
<input type="checkbox"/>	Dust or filter masks , readily available in hardware stores, which are rated based on how small a particle they filter
<input type="checkbox"/>	Moist towelettes for sanitation
<input type="checkbox"/>	Wrench or pliers to turn off utilities
<input type="checkbox"/>	Can opener for food (if kit contains canned food)
<input type="checkbox"/>	Plastic sheeting and duct tape to "seal the room"
<input type="checkbox"/>	Garbage bags and plastic ties for personal sanitation
