

## 2021 Fall Tree Planting Tree Availability

The Village of Palos Park uses a commercial tree nursery to supply trees, availability depends on stock at the time of our order. You may **select ONE TREE**. The Village will contact you if for any reason your tree is not available at the time of purchase.

We encourage you to research your tree before making a choice. Things to consider are the type of climate the tree needs, watering conditions, leaf, if it bears fruit or blossoms, color, etc. to make the best choice for in front of your home.

<u>Species</u>	<u>Common Name</u>	<u>Latin Name</u>
